

06_Class_Activity

Bill Perry

In class activity 6:

What did we do last time in activity 5?

- Understanding standard normal distributions and z-scores
- Calculating and interpreting standard error
- Creating confidence intervals
- Working with the Student's t-distribution

Today's focus:

- Review more r code
- understand α alpha and β beta errors
- do more
 - 1 sample t tests
 - 2 sample t tests
